

MARKUS FOURIE

SOFTWARE DEVELOPER

SOUTH AFRICA / UK | ✉ MARKUSFOURIE@ICLOUD.COM |  GITHUB.COM/THEPEDALINGDEV |  WWW.LINKEDIN.COM/IN/MARKUS-FOURIE

Professional Summary

Full-stack developer at Katanga Contracting Services (KCS), open to new work and new experiences. Builds production operations software — notably the Resource Management System (RMS: 388 assets, 46 users) — plus prior work on the Afrisist fleet alarm desk, Eridge RDA and the Skillance freelance marketplace. Focused on high-quality, performance-driven systems; former Varsity College student tutor.

Professional Experience

Full-stack Developer – Katanga Contracting Services (KCS) / Rimitso – Resource Management System (RMS) 2025 – Present

- Architecting and developing the RMS operations platform (React, ASP.NET Core, EF Core, PostgreSQL, SignalR, Azure) — live with 388 assets and 46 users. Built multi-role access control, approval workflows and Tailwind-styled administrative Dashboards communicating to a RESTful backend API with its own Swagger documentation.
- Working with KCS / Rimitso to automate business workflows across multiple DRC sites, improving asset tracking efficiency and ensuring data consistency and reliability.

Software Developer – Afrisist – *Vehicle Alarm Monitoring Dashboard* 2025 – Limited Duration Project

- Developed a modern React + Node.js + Supabase(self-hosted) web application alongside a colleague for real-time vehicle alarm handling, using cron jobs, webhooks, and Supabase real-time events for user assignment automation and status updates.
- Designed an intuitive UI/UX with animated dashboards, live data streams, and modular backend APIs for scalability.

Student Tutor – Varsity College 2023– 2025

- Supported undergraduate first year students in computer science and software development subjects, with a focus on application design, full-stack logic, and project structuring.
- Conducted one-on-one sessions to improve academic performance of students who are struggling with certain modules.

Education

Bachelor of Science in Computer and Information Science (Cum Laude) Varsity College Completed: December 2025

- Awarded Cum Laude. Varsity College Top Achiever (2025) and Golden Key Top Performer.
- Varsity College (now Emeris) – Pretoria Campus, RSA.

Bachelor of Science in Physics and Mathematics NWU – POTCHEFSTROOM 2020 - 2021

- Passed 8 semester subjects, including 1 distinction.
- Incomplete — switched career path to software development.

Core Technical Skills

Languages: HTML, CSS, JavaScript, TypeScript, C#, Java, Kotlin, SQL

Frameworks & Tools: React, Node.js, Express, ASP.NET Core, EF Core, Tailwind CSS, Docker, Azure, SignalR, Supabase, Linux

Databases: PostgreSQL, SQL Server, Firebase, MongoDB

Other: Git, RESTful API Design, OpenAPI/Swagger, GitHub Actions.
